

CymSTAR Announces Collaboration Agreement with AWx at Paris Air Show

Paris Air Show, June 22, 2023 - CymSTAR is thrilled to announce an exclusive collaboration agreement with Belgian-based Acceleration Worx (AWx) to revolutionize flight simulation technology. This partnership will bring AWx's groundbreaking Lateral Maneuvering Motion (Lm²) technology to the Department of Defense and civil air training markets.

As part of this agreement, CymSTAR becomes the sole provider of the patented Lm² motion control method for full flight simulators of large transport category aircraft and helicopters. Lm² significantly enhances simulator fidelity, replicating realistic reactions to aileron, rudder and tiller control inputs with precision and authenticity. Pilots will experience the same level of realism in the simulator as in an actual aircraft.

"CymSTAR is delighted to join forces with Acceleration Worx to offer Lm² enhanced fidelity simulation to our esteemed Defense customers. Our commitment lies in delivering best-of-the-breed training systems that leverage cutting-edge technology and engineering," said Dan Marticello, CEO and President of CymSTAR. "Our top priority is to ensure our customers receive the highest quality solutions promptly and cost-effectively."

This collaboration between CymSTAR and AWx marks a significant milestone in advancing flight simulation technology, promising unparalleled training experiences for aviation professionals. Both companies are dedicated to pushing the boundaries of innovation, providing the most effective training solutions in the market.

About CymSTAR:

CymSTAR is a premier training systems integrator offering engineering, training services, and simulation products to the U.S. Armed Forces, Allied nations, and leading organizations in the aerospace industry. With over 20 years of experience, we specialize in modifications, upgrades, development, integration, and sustainment of training systems designed to prepare military personnel for mission readiness and operational success.

Our company is proud to be HUBZone-certified and a Service-Disabled Veteran-Owned Small Business (SDVOSB), employing over 200 skilled professionals across the United States. At CymSTAR, we understand the unique needs of our clients, and our team is committed to delivering customized solutions tailored to your specific requirements.

Whether you want to enhance your aircrew training programs, develop new capabilities, or sustain existing systems, CymSTAR is your trusted partner. Contact us today to learn more about our comprehensive range of products and services and how we can help you achieve your goals.
