## CymSTAR Services LLC

**A Service Disabled Veteran Owned  
Small Business**

## We Are CymSTAR...

...the nationally recognized, premier provider of concurrent technology modifications, and upgrades for the military simulation industry since 2003. CymSTAR also specializes in the engineering design, manufacture, delivery and certification of new training devices for its defense customers.

Through our sister company CymSTAR Services, we continue to provide our customers with on-site, contract engineering, management, maintenance, and support personnel since 2007.

## Why CymSTAR Services?

- We place a priority on enabling and encouraging our employees to produce at a high level.
- We value the intellectual opinions and skills of our engineers as an essential contribution to our customers' complete satisfaction and our successful growth.
- Our program management teams are given the authority at the lowest levels to identify and implement customer focused solutions.

## Projects

### **United States Air Force Training Systems**

CymSTAR Services provides program management and engineering services at Training Systems Support Centers (TSSC) as well as on-site Contractor Logistics Services (CLS) maintenance support.

#### A-10 Aircrew Training System (ATS)

Based out of Tucson, Arizona, we support the A-10 Thunderbolt II aircrew simulators in the United States, Germany, and Korea.

#### F-16 Training System (TS)

Based out of Ogden, Utah, we support the F-16 Fighting Falcon aircrew and maintenance simulators in the United States, Bahrain, Belgium, Egypt, Germany, Greece, Israel, Italy, Japan, Jordan, Korea, Netherlands, Norway, Taiwan, Turkey, and Venezuela.

### **United States Army WarFighter FOCUS**

CymSTAR Services maintains the Multiple Integrated Laser Engagement System (MILES) field combat training simulation and network support equipment at Ft. Polk, Louisiana and Ft. Irwin, California. We also engineer life cycle support solutions for special operations aircrew training simulators to include the UH-60 BlackHawk.
